# Further useful details

- Key code into the key pad ... to enter
- Turn knob RIGHT to open....
- Walk in put your rubbish into the relevant bin...
- See JFI photos of inside view of the door includes top and bottom bolts in case both doors need to be open for any reason. And view of the mechanics of the lock slide open and closed
- When leaving pull door closed and turn the knob to the LEFT
- This now means the door is locked and ready for the next customer

# When leaving please use door handle to pull close...

And turn just turn the knob to the  
LEFT ...

This means then the door is fully  
locked ...

If you don't turn the knob to the left  
then the door is not fully locked...
